

Activity Instructions

Activity Name: Why Do Balls Need Air?

Study: Balls

Objective for Learning: 7a,7b

The following supplies are needed for this activity:
**ball pump and ball
or Ziploc bag straw**

Instructions:

Use this activity to demonstrate to your child how balls are blown up and deflated.

1. If you have one, use the ball pump to pump deflated balls you may have at home.
2. If you don't have a pump you may use a Ziploc bag and pretend it's a bag. Close half of the bag and put a straw in the bag and close the rest of it up. You can blow air through the straw and into the bag.
