

Activity Instructions

Activity Name: Snowballs

Study: Balls

Objective for Learning: 7a

The following supplies are needed for this activity:
1 small bag of snow mix, water, measuring cup, bowl

Instructions:

1. Pour snow mix in bowl.
2. Pour 8 cups of water into bowl.
3. Mix well and create snowballs

You can create different sizes of snowballs and a snowman with the mix. Ask your child questions about how the snow feels, which ball is bigger or smaller, use positional words “place the snowball next to” or “on top of” another snowball.

Take notice of your child’s understanding of the positional words and note expanded vocabulary they might use when describing the snowball. Share this information with your child’s teacher.

You can also use your imagination and create other things with the mix (ex. ice-cream, whipped cream, cotton balls and clouds).
